Professional Summary

A versatile and experienced full-stack web developer with 3+ years of hands-on experience developing web applications across a wide array of technologies, including **front-end**, **back-end**, and **database**. Proficient in **HTML**, **CSS**, **JavaScript (React.js, Node.js)**, and adept at working with **PHP**, **Python**, **Django**, **MySQL**. Expertise in **modern animations** with **GSAP**, ensuring smooth, interactive user experiences, and experienced with tools like **Docker** for deployment. Proven ability to manage end-to-end projects, from design and architecture to final deployment, ensuring scalable, secure, and user-friendly solutions.

Education

BSc in Computer Science, DHA Suffa University

Sep 2021 - July 2025

A'Level (Maths, Physics & Computer Science), Highbrow College

Aug 2019 - May 2021

O'Level (Pre-Engineering), Beaconhouse School System

Aug 2016 - May 2019

Technical Skills

Front-End: HTML, CSS, JavaScript (ES6+), React.js, Redux, Bootstrap, Tailwind CSS, GSAP

Back-End: Node.js, Express.js, Django, PHP, REST APIs, Python

Databases: MySQL

Tools & Platforms: Git, Docker, Netlify

Other Skills: Agile Methodologies, SEO Optimization, Technical Writing, Project Management

Work Experience

Web Developer, Infiniti Logics

Feb 2024 - Present

- Built and scaled **full-stack web applications** using a mix of **React.js**, **Node.js**, and **MySQL**, driving a **\$400 monthly revenue increase** within the first six months.
- Integrated **GSAP animations** to develop dynamic, interactive front-end experiences, improving user engagement metrics.
- Engineered secure REST APIs and integrated them with third-party services using **Node.js** and **Express.js**, ensuring optimal performance.
- Led a team of developers to deliver multiple projects under agile methodologies, maintaining **95% client satisfaction**.

Lead Web Developer, Arclight Digitals

Sep 2023 - Feb 2024

- Led the full redesign of the company website using **React.js**, **Redux**, and **Tailwind CSS**, resulting in a **40% increase** in user engagement.
- Implemented **Django** for back-end services, offering robust, scalable API endpoints that powered business-critical features.
- Enhanced web performance through **SEO** and backend optimizations, leading to a **25% increase in web traffic** and improved lead generation.
- Migrated legacy systems to a modern, scalable infrastructure using **Docker** and deployed to **AWS** for improved maintainability.

Freelance Web Developer

Feb 2023 - Present

- Delivered **10+ custom web applications** for various clients across multiple platforms, with expertise in a variety of frameworks and libraries, including **React.js**, **Node.js**, **PHP**, and **Python**.
- Developed multi-functional e-commerce platforms, integrating **payment gateways** such as **Stripe** and **PayPal**, along with custom CMS functionality for seamless product management.
- Utilized **GSAP** to design smooth, visually appealing animations for landing pages and complex UI interactions, resulting in a **30% boost** in client conversions.
- Deployed projects, ensuring continuous integration with **GitHub** and **CI/CD pipelines**.

Projects

Java-Based Online Banking System

Designed a secure banking platform with **Java**, featuring user authentication and transaction tracking, reducing errors by **20%**.

Grocery Store Management System

Developed a C-based system for managing inventory, sales, and customer data, streamlining operations and reducing workload by 30%.

Database Management System

Built relational database structures to optimize data handling and processing, improving user experience and interaction by **20%**.

Dynamic Web Animations

Utilized **GSAP animations** in a portfolio of web projects to create visually appealing and interactive interfaces, increasing client engagement and satisfaction.

Django Application for TSV Spreadsheet Management

Developed a Django application enabling simultaneous viewing and editing of multiple TSV spreadsheets, with features for tagging entries, sorting data, and applying filters.
